1. ORGANIZATIONAL INFORMATION

InterRent Real Estate Investment Trust (the "Trust" or the "REIT") is an unincorporated, open-ended real estate investment trust created pursuant to a Declaration of Trust, dated October 10, 2006, and most recently amended and restated on May 21, 2019, under the laws of the Province of Ontario.

The Trust was created to invest in income producing residential properties within Canada. InterRent REIT Trust Units are listed on the Toronto Stock Exchange under the symbol IIP.UN. The registered office of the Trust and its head office operations are located at 485 Bank Street, Suite 207, Ottawa, Ontario, K2P 1Z2.

These condensed consolidated interim financial statements for the period ended March 31, 2021 were authorized for issuance by the Trustees of the Trust on May 11, 2021.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and footnote disclosure normally included in the annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the IASB, have been omitted or condensed.

The financial statements have been presented in Canadian dollars, which is the Trust's functional currency, rounded to the nearest thousand unless otherwise indicated.

These condensed consolidated interim financial statements should be read in conjunction with the Trust's annual consolidated financial statements for the year ended December 31, 2020.

Basis of presentation

The Trust presents its consolidated balance sheets based on the liquidity method, whereby all assets and liabilities are presented in increasing order of liquidity.

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for:

- i) Investment properties, which are measured at fair value (except for investment properties under development where fair value is not reliably determinable);
- ii) Financial assets and financial liabilities classified as "fair value through profit and loss", which are measured at fair value; and
- iii) Unit-based compensation liabilities and Class B LP unit liability which are measured at fair value.

2. BASIS OF PRESENTATION (Continued)

Significant accounting policies

The condensed consolidated interim financial statements have been prepared using the same accounting policies and methods as those used in the consolidated financial statements for the year ended December 31, 2020 except for the items listed below.

Revenue recognition

Management fees are earned from project and property management of jointly controlled properties. Fees are recorded in other income and fees as the services are provided.

Financial instruments, financial liabilities at FVTPL

Interest rate swaps are measured at FVTPL.

Basis of consolidation

The condensed consolidated interim financial statements include the accounts of the Trust and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated upon consolidation. Subsidiaries are entities over which the Trust has control and are consolidated from the date control commences until control ceases. Control is achieved when the Trust has power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect its returns.

Critical accounting estimates and judgments in applying accounting policies

The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment when applying the Trust's accounting policies. The critical accounting estimates and judgments have been set out in notes 2 and 3 to the Trust's consolidated financial statements for the year ended December 31, 2020.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. The duration and impact of the COVID-19 pandemic on the Trust is unknown at this time. As such, it is not possible to reliably estimate the length and severity of COVID-19 related impacts on the financial results and operations of the Trust. Any estimates are therefore subject to significant uncertainty, and may materially and adversely affect the Trust's operations and financial results.

In light of the COVID-19 pandemic, management has made judgments in determining the valuation inputs used in its internal valuation model to measure fair value of investment properties. There has not been a structural shift in the supply or demand of multifamily housing as a result of the pandemic that would necessitate any changes in the valuation methodologies. The carrying value for the Trust's investment properties reflects its best estimate for the highest and best use as at March 31, 2021 (note 3).

3. INVESTMENT PROPERTIES

Investment properties include income properties, properties under development and land held for development.

	March 31, 2021	December 31, 2020
Income properties	\$ 3,340,365	\$ 3,053,856
Properties under development	53,290	52,384
	\$ 3,393,655	\$ 3,106,240

Income properties:

	March 31, 2021	December 31, 2020
Balance, beginning of period	\$ 3,053,856	\$ 2,713,669
Acquisitions (note 4)	174,159	217,684
Property capital investments	14,711	52,393
Fair value adjustments	97,639	70,110
	\$ 3,340,365	\$ 3,053,856

Properties under development:

Properties that are undergoing a significant amount of development work to prepare the property for use as income properties.

	March 31, 2021	December 31, 2020
Balance, beginning of period	\$ 52,384	\$ 34,673
Acquisitions (note 4)	-	14,839
Property capital investments	906	2,872
	\$ 53,290	\$ 52,384

The fair value of the income properties is determined internally by the Trust. The fair value methodology of the Trust's income properties is considered a level 3 valuation as significant unobservable inputs are required to determine fair value.

The Trust determined the fair value of each income property internally based upon the direct capitalization income approach method of valuation. The fair value was determined by applying a capitalization rate ("Cap Rate") to forecasted stabilized net operating income ("SNOI"), which incorporates turnover estimates, market rent adjustments, allowances for vacancy, management fees, labour and repairs and maintenance for the property. In order to substantiate management's valuation, the Trust engaged a leading independent national real estate appraisal firm to provide appraisals for substantially all of the portfolio at December 31, 2020. The Trust engaged the firm once again to review and advise of any significant changes in any of the key input assumptions in the model (such as capitalization rate, turnover estimate and market rent adjustments) as at March 31, 2021, in order for the Trust to complete its internal valuations.

In reviewing the forecasted SNOI and Cap Rates, management considers many economic factors including, but not limited to, the effect that the COVID-19 pandemic has had on the major assumptions (specifically turnover estimates and allowances for vacancy).

3. INVESTMENT PROPERTIES (Continued)

The capitalization rate assumptions for the income properties are included in the following table:

	March 31, 2021		December 31, 2020	
	Range	Weighted average	Range	Weighted average
Capitalization rate	3.25% - 5.75%	4.06%	3.25% - 5.75%	4.16%

The direct capitalization income approach method of valuation requires that SNOI be divided by a Cap Rate to determine a fair value. As such, changes in both SNOI and Cap Rate could significantly alter the fair value of the investment properties. The tables below summarize the impact of changes in both SNOI and Cap Rate on the Trust's fair value of the income properties:

As at March 31, 2021

		-3%	-1%	As estimated	+1%	+3%
Forecasted stabilized net operating income		\$ 131,550	\$ 134,263	\$ 135,619	\$ 136,975	\$ 139,688
Capitalization rate						
-0.25%	3.81%	\$ 3,452,767	\$ 3,523,958	\$ 3,559,554	\$ 3,595,149	\$ 3,666,340
Cap rate used	4.06%	\$ 3,240,158	\$ 3,306,966	\$ 3,340,365	\$ 3,373,773	\$ 3,440,581
+0.25%	4.31%	\$ 3,052,214	\$ 3,115,146	\$ 3,146,613	\$ 3,178,079	\$ 3,241,011

As at December 31, 2020

		-3%	-1%	As estimated	+1%	+3%
Forecasted stabilized net operating income		\$ 123,229	\$ 125,770	\$ 127,040	\$ 128,310	\$ 130,851
Capitalization rate						
-0.25%	3.91%	\$ 3,151,632	\$ 3,216,614	\$ 3,249,105	\$ 3,281,596	\$ 3,346,578
Cap rate used	4.16%	\$ 2,962,231	\$ 3,023,308	\$ 3,053,856	\$ 3,084,385	\$ 3,145,462
+0.25%	4.41%	\$ 2,794,304	\$ 2,851,918	\$ 2,880,726	\$ 2,909,533	\$ 2,967,147

Land held for development is measured initially at cost, including transaction costs and subsequently measured at fair value.

The three (2020 - three) properties under development are valued at acquisition cost plus development costs. The direct capitalization income approach method of valuation is not a reliable measure as the properties are undergoing a significant amount of work which will affect multiple components of the estimated net operating income as well as the Cap Rate. The Trust expects the fair value of the properties to be reliably determinable when development is substantially complete, and will measure both investment properties under development at cost until either its fair value becomes reliably determinable or development is completed (whichever is earlier).

5. INVESTMENT IN JOINT VENTURES

The Trust accounts for its joint venture interests using the equity method. The following table details the Trust's ownership interest in its equity accounted investments:

Equity Investee	Location	Principal Activity	March 31, 2021	December 31, 2020
TIP Albert Limited Partnership	Ottawa	Develop, own and operate investment property ⁽¹⁾	38.83%	38.83%
Fairview Limited Partnership	Burlington	Develop, own and operate investment property	25.0%	25.0%

⁽¹⁾ TIP Albert Limited Partnership has ownership interest of 85.83% in 801 Albert Street Inc., the development site at 900 Albert Street Ottawa. The Trust holds the remaining ownership of 14.17% interest in the development site. This ownership is reported under Property under Development (see note 6) as a joint operation. In total, the Trust holds a 47.5% interest in the development property.

The Trust is contingently liable for certain obligations of the joint ventures, up to the Trust's interest. All of the net assets of the joint ventures are available for the purpose of satisfying such obligations and guarantees.

The Trust is responsible to fund its total investment in the joint ventures for the development of the investment property.

The following table shows the changes in the carrying value of the investment in joint ventures:

Interest is charged at a floating rate plus a pre-defined spread. The weighted average interest rate on amounts drawn during the period ended March 31, 2021 was 3.10% (2020 - 3.42%).
- (iv) The Trust has a \$100,000 (2020 - \$100,000) term credit facility, maturing in 2021, with a Canadian chartered bank secured by a general security agreement, first mortgages on two (2020 - two) of the Trust's properties and second collateral mortgages on four (2020 - four) of the Trust's properties. Interest is charged at a floating rate plus a pre-defined spread for prime advances and banker's acceptances. The weighted average interest rate on amounts drawn during the period ended March 31, 2021 was 3.45% (2020 - 3.64%).

Accrued distributions	3,858	3,847
Mortgage interest payable	1,884	1,843
	\$ 25,629	\$ 27,449

11. CLASS B LP UNIT LIABILITY

The Class B LP units are non-transferable, except under certain circumstances, but are exchangeable, on a one-for-one basis, into Trust Units at any time at the option of the holder. Prior to such exchange, distributions will be made on the exchangeable units in an amount equivalent to the distributions which would have been made had the units of Trust been issued.

The Class B LP units are exchangeable on demand for Trust Units, which in turn are redeemable into cash at the option of the holder. As such, Class B LP units are classified as a financial liability.

11. CLASS B LP UNIT LIABILITY (Continued)

A summary of Class B LP Unit activity is presented below:

Number of Units	
Balance - December 31, 2019	3,410,766
Units issued	-
Balance - December 31, 2020	3,410,766
Units issued	-
Balance - March 31, 2021	3,410,766

The Class B LP Units represented an aggregate fair value of \$50,445 at March 31, 2021 (December 31, 2020 - \$46,694). The fair value represents the closing price of the Trust Units on the TSX on the reporting date, or the first trading date after the reporting date. Each Class B LP Unit is accompanied by a Special Voting Unit, which entitles the holder to receive notice of, attend and vote at all meetings of Unitholders. There is no value assigned to the Special Voting Units. The gains or losses that resulted from changes in the fair value were recorded in the consolidated statement of income.

12. UNIT-BASED COMPENSATION LIABILITIES

Unit-based compensation liabilities are comprised of awards issued under the deferred unit plan ("DUP") and the unit option plan as follows:

	March 31, 2021	December 31, 2020
Unit-based liabilities, beginning of period	\$ 58,200	\$ 66,070
Compensation expense - deferred unit plan	2,776	5,546
Compensation expense - unit option plan	-	-
DRIP ⁽¹⁾ expense - deferred unit plan	369	1,381
DUP units converted, cancelled and forfeited	(639)	(1,822)
Unit options exercised and expired	(573)	(890)
(Gain)/Loss on fair value of liability (note 17)	5,074	(12,085)
Unit-based liabilities, end of period	\$ 65,207	\$ 58,200

⁽¹⁾ Distribution reinvestment plan

Unit options and deferred units are settled with the issuance of Trust Units. However, due to the fact that Trust Units are redeemable, awards of unit options and deferred units are considered to be cash-settled. As such, the fair value of unit options and deferred units are recognized as a financial liability and re-measured at each reporting date, with changes recognized in the statement of income.

The maximum number of Trust Units issuable under the Trust's equity incentive compensation plans, which includes the DUP and unit options, as well as the long-term incentive plan (note 13) is 7% of the issued and outstanding Trust Units.

12. UNIT-BASED COMPENSATION LIABILITIES (Continued)

(i) DEFERRED UNIT PLAN

The deferred unit plan entitles trustees, officers and employees, at the participant's option, to elect to receive deferred units (elected portion) in consideration for trustee fees or bonus compensation under the employee incentive plan, as the case may be. The Trust matches the elected portion of the deferred units received. The matched portion of the deferred units vest 50% on the third anniversary and 25% on each of the fourth and fifth anniversaries, subject to provisions for earlier vesting in certain events. The deferred units earn additional deferred units for the distributions that would otherwise have been paid on the deferred units (i.e. had they instead been issued as Trust Units on the date of grant).

A summary of Deferred Unit activity is presented below:

Number of Units	
Balance - December 31, 2019	4,228,924
Units issued under deferred unit plan	326,703
Reinvested distributions on deferred units	100,877
Deferred units exercised into Trust Units (note 14)	(61,195)
Deferred units purchased and cancelled	(47,139)
Deferred units cancelled	(23,954)
Balance - December 31, 2020	4,524,216
Units issued under deferred unit plan	244,556
Reinvested distributions on deferred units	27,225
Deferred units exercised into Trust Units (note 14)	(14,290)
Deferred units purchased and cancelled	(14,290)
Deferred units cancelled	(18,986)
Balance - March 31, 2021	4,748,431

The fair value of each unit granted is determined based on the weighted average observable closing market price of the REIT's Trust Units for the ten trading days preceding the date of grant.

The aggregate fair value of vested deferred units was \$60,070 at March 31, 2021 (December 31, 2020 - \$53,174). The fair value of the vested deferred units represents the closing price of the Trust Units on the TSX on the reporting date, or the first trading date after the reporting date, representing the fair value of the redemption price.

(ii) UNIT OPTIONS

The Trust has a unit option plan and provides for options to be granted to the benefit of employees, Trustees and certain other third parties. The exercise price of options granted under the unit option plan will be determined by the Trustees, but will be at least equal to the volume weighted average trading price of the Trust Units for the five trading days immediately prior to the date the option was granted. The term of any option granted shall not exceed 10 years or such other maximum permitted time period under applicable regulations. At the time of granting options, the Board of Trustees determines the time, or times, when an option or part of an option shall be exercisable. The Trust will not provide financial assistance to any optionee in connection with the exercise of options.

13. LONG-TERM INCENTIVE PLAN

The Board of Trustees may award long-term incentive plan ("LTIP") units to certain officers and key employees, collectively the "Participants". The maximum number of Trust Units issuable under the Trust's equity incentive compensation plans, which includes the long-term incentive plan, as well as the DUP and unit option plan (note 12) is 7% of the issued and outstanding Trust Units. The Participants can subscribe for Trust Units at a purchase price equal to the weighted average trading price of the Trust Units for the five trading days prior to issuance. The purchase price is payable in instalments, with an initial instalment of 5% paid when the Trust Units are issued. The balance represented by a loan receivable (note 7) is due over a term not exceeding ten years. Participants are required to pay interest at a ten-year fixed rate based on the Trust's fixed borrowing rate for long-term mortgage financing and are required to apply cash distributions received on these units toward the payment of interest and the remaining instalments. Participants may pre-pay any remaining instalments at their discretion. The Trust has recourse on the loans receivable and has reasonable assurance that the Trust will collect the full amount of the loan receivable. The loans receivable are secured by the units as well as the distributions on the units. If a Participant fails to pay interest and/or principal, the Trust can enforce repayment which may include the election to reacquire or sell the units in satisfaction of the outstanding amounts.

14. TRUST UNITS (Continued)

On June 4, 2020, the Trust completed a bought deal prospectus offering whereby it issued 15,709,000 Trust Units for cash proceeds of \$230,137 and incurred \$9,676 in issue cost.

On May 5, 2020, the TSX approved the Trust's normal course issuer bid ("Bid") for a portion of its Trust Units. Under the Bid, the Trust may acquire up to a maximum of 11,481,830 of its Trust Units, or approximately 10% of its public float of 114,818,300 Trust Units as of April 30, 2020, for cancellation over the next 12 months commencing on May 11, 2020 until the earlier of May 10, 2021 or the date on which the Trust has purchased the maximum number of Trust Units permitted under the Bid. The number of Trust Units that can be purchased pursuant to the Bid is subject to a current daily maximum of 125,709 Trust Units (being 25% of the average daily trading volume), except where purchases are made in accordance with "block purchases" exemptions under applicable TSX policies. Purchases will be made at market prices through the facilities of the TSX.

For the three months ended March 31, 2021, the Trust did not purchase any Trust Units.

Declaration of Trust

The Declaration of Trust authorizes the Trust to issue an unlimited number of units for consideration and on terms and conditions established by the Trustees without the approval of any unitholders. The interests in the Trust are represented by two classes of units: a class described and designated as "Trust Units" and a class described and designated as "Special Voting Units". The beneficial interests of the two classes of units are as follows:

(a) Trust Units

Trust Units represent an undivided beneficial interest in the Trust and in distributions made by the Trust. The Trust Units are freely transferable, subject to applicable securities regulatory requirements. Each Trust Unit entitles the holder to one vote at all meetings of unitholders. Except as set out under the redemption rights below, the Trust Units have no conversion, retraction, redemption or pre-emptive rights.

Trust Units are redeemable at any time, in whole or in part, on demand by the holders. Upon receipt by the Trust of a written redemption notice and other documents that may be required, all rights to and under the Trust Units tendered for redemption shall be surrendered and the holder shall be entitled to receive a price per Trust Unit equal to the lesser of:

- i) 90% of the "market price" of the Trust Units on the principal market on which the Trust Units are quoted for trading during the twenty-day period ending on the trading day prior to the day on which the Trust Units were surrendered to Trust for redemption; and
- ii) 100% of the "closing market price" of the Trust Units on the principal market on which the Trust Units are quoted for trading on the redemption notice date.

(b) Special Voting Units

The Declaration of Trust provides for the issuance of an unlimited number of Special Voting Units that will be used to provide voting rights to holders of Class B LP units or other securities that are, directly or indirectly, exchangeable for Trust Units.

The Special Voting Units do not entitle or give any rights to the holders to receive distributions or any amount upon liquidation, dissolution or winding-up of Trust. There is no value assigned to the Special Voting Units.

20. CAPITAL RISK MANAGEMENT

The Trust's objectives in managing capital are to ensure sufficient liquidity to pursue its strategy of organic growth combined with strategic acquisitions and to provide returns to its unitholders. The Trust defines capital that it manages as the aggregate of its unitholders' equity, which is comprised of issued capital and retained earnings, Class B LP units and deferred unit capital and options recorded as unit-based compensation liabilities.

The Trust manages its capital structure and makes adjustments to it in light of general economic conditions, the risk characteristics of the underlying assets and the Trust's working capital requirements. In order to maintain or adjust its capital structure, the Trust, upon approval from its Board of Trustees, may issue or repay long-term debt, issue units, repurchase units through a normal course issuer bid, pay distributions or undertake other activities as deemed appropriate under the specific circumstances. The Board of Trustees reviews and approves any material transactions out of the ordinary course of business, including approval of all acquisitions of investment properties, as well as capital and operating budgets. There have been no changes to the Trust's capital risk management policies for the three months ended March 31, 2021 and the year ended December 31, 2020.

The Trust monitors capital using a debt to gross book value ratio, as defined in the Declaration of Trust which requires the Trust to maintain a debt to gross book value ratio below 75%. As at March 31, 2021, the debt to gross book value ratio is 32.7% (December 31, 2020 - 31.1%).

In addition, the Trust is subject to financial covenants in its mortgages payable and credit facilities such as minimum tangible net worth, interest coverage, debt service coverage and leverage ratio (similar to debt to gross book value as calculated in the Declaration of Trust). The Trust was in compliance with all financial covenants throughout the three month period ended March 31, 2021 and the year ended December 31, 2020.

21. FINANCIAL RISK MANAGEMENT

a) Overview

The Trust is exposed to credit risk, liquidity risk and market risk. The Trust's primary risk management objective is to protect earnings and cash flow and, ultimately, unitholders value. Risk management strategies, as discussed below, are designed and implemented to ensure the Trust's risks and the related exposures are consistent with its business objectives and risk tolerance.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. The duration and impact of the COVID-19 pandemic on the Trust is unknown at this time but has resulted in the federal and provincial governments enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Uncertain economic conditions resulting from the COVID-19 outbreak may, in the short or long term, materially adversely impact: the Trust's tenants and their ability to pay rent (credit risk); and/or, the debt and equity markets and the Trust's ability to access debt and/or capital on acceptable terms, or at all (liquidity risk), all of which could materially adversely affect the Trust's operations and financial performance.

21. FINANCIAL RISK MANAGEMENT (Continued)

b) Credit Risk

The Trust's credit risk is attributable to its rents and other receivables and loan receivable long-term incentive plan.

Credit risk arises from the possibility that: (i) tenants may experience financial difficulty and be unable to fulfil their lease commitments; and (ii) a party defaults on the repayment of their debt causing a financial loss to the Trust.

For its rents receivable, the Trust conducts credit assessments for all prospective tenants and, where permitted, obtains adequate security to assist in potential recoveries. The Trust monitors its collection process on a regular basis and all receivables from past tenants and tenant receivables over 30 days are provided for in allowances for doubtful accounts.

Credit risk relating to other receivables and loan receivable long-term incentive plan is mitigated through recourse against such parties and/or the underlying security. These receivables are considered to have low credit risk.

At March 31, 2021, the Trust had past due rents and other receivables of \$4,108 (December 31, 2020 - \$3,529), net of an allowance for doubtful accounts of \$1,774 (December 31, 2020 - \$1,812) which adequately reflects the Trust's credit risk.

c) Liquidity Risk

Liquidity risk is the risk that the Trust will not be able to meet its financial obligations as they fall due. The Trust manages liquidity risk through the management of its capital structure and financial leverage, as outlined in note 20 to the condensed consolidated interim financial statements. It also manages liquidity risk by continuously monitoring actual and projected cash flows to ensure that it will always have sufficient liquidity to meet its liabilities (excluding derivative and other financial instruments reported as liabilities at fair value) when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Trust's reputation. In addition, liquidity and capital availability risks are mitigated by diversifying the Trust's sources of funding, maintaining a staggered debt maturity profile and actively monitoring market conditions.

As at March 31, 2021, the Trust had credit facilities as described in note 9.

The Trust continues to refinance the outstanding debts as they mature. Given the Trust's available credit and its available liquid resources from both financial assets and on-going operations, management assesses the Trust's liquidity risk to be low.

⁽¹⁾ Based on current in-place interest rates for the remaining term to maturity.

d) Market Risk

Market risk includes the risk that changes in interest rates will affect the Trust's cash flows or the fair value of its financial instruments.

At March 31, 2021, approximately 4% (December 31, 2020 - 2%) of the Trust's mortgage debt is at variable interest rates and the Trust's credit facilities also bear interest at variable rates. If there was a 100 basis point change in the interest rate, cash flows would have changed by approximately \$142 for the three months ended March 31, 2021 (2020 - \$346).

22. FAIR VALUE MEASUREMENT

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect estimates.

Financial instruments are defined as a contractual right to receive or deliver cash or another financial asset. The fair values of the Trust's financial instruments, except for mortgages payable, approximate their recorded values due to their short-term nature and/or the credit terms of those instruments.

The fair value of the mortgages payable has been determined by discounting the cash flows using current market rates of similar instruments. These estimates are subjective in nature and therefore cannot be determined with precision. The fair value of mortgages payable, and credit facilities, which are measured at a fair value level 2, is approximately \$1,164,883 (December 31, 2020 - \$1,050,628) excluding any deferred financing costs.

24. SUBSEQUENT EVENTS (Continued)

On May 10, 2021, the Trust announced that the TSX had approved its normal course issuer bid ("Bid") for a portion of its Trust Units as appropriate opportunities arise from time to time. Under the Bid, the Trust may acquire up to a maximum of 13,200,140 of its Trust Units, or approximately 10% of its public float of 132,001,401 Trust Units as of May 6, 2021, for cancellation over the next 12 months commencing on May 14, 2021 until the earlier of May 13, 2022 or the date on which the Trust has purchased the maximum number of Trust Units permitted under the Bid. The number of Trust Units that can be purchased pursuant to the Bid is subject to a current daily maximum of 88,485 Trust Units (being 25% of the average daily trading volume), except where purchases are made in accordance with "block purchases" exemptions under applicable TSX policies. Purchases will be made at market prices through the facilities of the TSX. The Trust intends to fund the purchases out of its available cash and undrawn credit facilities.
